

An-Naba Newspaper Issue 289

Thursday 22 Shawwal 1442 AH

The Crusader Centers for Studies are still publishing their reports and recommendations, which warn countries and governments from the danger of the pro-Islamic State media, emphasizing that its danger originates from its fundamental role in continuing encouragement on Jihad for the sake of Allah ta'ala and targeting kuffar and murtaddin everywhere around the world.

The Crusaders soon realized the danger of this supportive media to the official Islamic State media, so they held dozens of conferences, spent millions of dollars, gathered their experts, mobilized their agents and exerted their utmost efforts, with the aim of eliminating this supportive media and silencing its voice, knowing its prominent role and its great impact in the media war that goes hand in hand with the wars and military battles on the ground.

At a time when the Crusader America led a global coalition of various countries with the aim of a military confrontation against the army of the Islamic State on the ground, the same alliance was leading another war against the army of the Islamic State on the internet, especially after the recommendations of the most prominent centers of the war on Islam that military confrontation alone is not sufficient to eliminate the Islamic State, and that an ideological and media war must coincide with the military wars.

Over the years of this raging war, there was no government that did not participate in it in one way or another, until the terms and restrictions of many media platforms that were invaded and controlled by the media soldiers and turned them into an arrow in the quiver of the Mujahidin after it had been a dagger in the backs of Muslims for years that mislead their children, distorted their beliefs and corrupted their manners.

Despite the fierce war waged by these kafir governments, their intelligence services and experts against the Mujahidin and warriors of information, which was no less fierce than the military war, except that it failed, by the Grace of Allah ta'ala, to achieve its declared goals, and the mujahideen's messages, news and videos continued to invade all parts of the world, which baffled the perception of the disbelievers and confused their minds.

One of the faces of this war was; The relentless pursuit of the intelligence of the Crusaders and the Murtaddin and their desperate attempts to split the ranks of the supporters and stir up dissension among them, following all the Satanic methods and means that we all experienced over the past years, but their efforts failed by the Grace of Allah ta'ala and the voice of the Islamic State remained heard, and its call remained constant, a call towards Tawhid and to struggle against Shirk by declaration, spear, speech and action.

So when you have understood this, O Mujahid of the Media, and realised your worth in this battle, then stick to your matter, renew and fix your intention, strive against your own soul and discipline it, and consider everything you do for the sake of Allah ta'ala, because the reward and intention guarantee you to continue on the path, In sha Allahu ta'ala.

So strive to restrain your intention and be faithful to Allah ta'ala, and know that your steadfastness in the field of media has a major impact on your Mujahidin brothers on the battlefields, for you are their voice that reaches the Muslims and you are their other gun with which they confront the armies of falsehood in the battle of Tawhid.

We also call upon our brothers, the warriors of the media, to pledge to remind each other, so each one of them advises his brother, and encourages each other, because the war is still going on and has not yet ended, and the upcoming stages require more determination, holding firmly together, organising the work, and launching the media raids, especially the mass media campaigns that has always exhausted and has given insomnia to the disbelievers and the hypocrites while they stood helpless and perplexed in front of this endless stream of supporters of the Islamic State, which made a distinguished media impression in the history of jihadi media, which became the focus of the attention of the friend and the enemy.

And we remind our brothers that working in the field of jihadi media is like any other form of worship in which a person may experience apathy, shortcoming or boredom, and this undoubtedly occurs in the human soul, so push it away from you with patience, perseverance, endeavour and striving. It is not correct for a Muslim to do otherwise, and that the whole life is hardship and suffering, even in the pursuit of this world, so how about that which is higher and more precious than the world and what is in it, and it is Tawhid and Jihad?!,

It also pushes forward by contemplating on what Allah ta'ala has prepared for His Mujahidin servants in terms of reward, as it was said: "Difficulties eases for whom reward becomes evident." And it is also pushed forward by supplicating and seeking help from Allah ta'ala, for He is the source of Strength and Guider to the right path.

The enemies of the Islamic State and its opponents roamed and traveled through the world in search of a solution to stop the activity of the media supporters, but they did not find and will never find, Bi'idnillahi ta'ala, and what increases their anger and rage against the warriors of media is their success in attracting new supporters to work in this field and guarding over this blessed front, which means the continuation of the jihadi media without stopping, which caused a state of despair that was evident in the statements and slip of the tongue as reflected. The experts of the Crusaders and Murtaddin who are working day and night to monitor the media activity of the supporters of the Islamic State on various media platforms and websites.

After long seasons of raging battles between the soldiers of the Most Merciful and the soldiers of Shaytan on the media fronts, we can say that the efforts of the Crusaders and the Murtaddin and with them the armies of the hypocrites has failed, by the grace of Allah ta'ala, to stop the wheel of the blessed jihadi media that is constantly revolving calling towards Tawhid and the establishment of the

Shariah of Allah ta'ala on his land, inciting upon Jihad and fighting the disbelievers and targeting them above every land and under every sky.

As we lend ears to the heroes of the pro-jihadi media with these words, we aim to remind them by the grace of Allah ta'ala over them that He guided them and granted them success on this path, and prepared for them the reasons for joining this blessed front that is no less important than the other fronts of jihad.

Therefore, whoever knows the importance of this front and the extent of its impact on the course of the battles, should continue in it and make more efforts and activity in it, and direct your attention to have sincerity in work for Allah ta'ala, as it is one of the greatest reasons for continuity and steadfastness on this front and every front, and for every media Mujahid to remember that what he does is an obligation and not voluntary (act).

And in regards to this Shaykh Abu Hamza al-Muhajir, May Allah accept him, said, directing his word to those who took up the liability of conveying the message: "Adhere to your fronts in this field, because you repel evil from the Muwahidin of what Allah is all-knowing. Adhere to your front because we are in need of your presence; beware of thinking that your work is supererogatory in speech and action, your work is obligatory upon you, so strive hard in the trust that you have been charged with."

We ask Allah ta'ala to help us and you in this great trust and to use us and you to support His deen, defend His Shariah and support His Mujahidin servants, certainly He [alone] is worthy [of this plead] and is able to bring this pass.
